## A MESSAGE FROM THE SENIOR PRINCIPAL:

### ROLE OF DISCIPLINE IN EDUCATION AND DEVELOPMENT

Discipline, as many are thinking, is not just obeying or a term related to punishments, in an educational setup. It is rather a system of rules and practices implemented to foster a conducive and healthy learning environment, to develop a responsible behavior in students that ultimately shape responsible citizens for the future work.

It encompasses practicing self-control, accountability and respect in academics and personal acts.

Discipline plays a vital role in creating focused learning environment for all so that students can concentrate on studies without any disruptions.

In a focused learning atmosphere, the academic performance improves thereby students can manage their time effectively and accomplish the academic assignments in time.

Discipline also develops self-control and responsibility and so students can take ownership of their actions and this enables them to make responsible choices.

Discipline cultivates respect for teachers, peers, school rules that contribute to a harmonious and cooperative environment where learning occurs effectively.

A disciplined environment encourages punctuality, organization and a strong work ethic - the skills that are essential for future success.

Resilience, perseverance and problem solving skills are developed by a disciplined and focused mind and this helps to face challenges in their academic and professional endeavours - that is essential for the successful adulthood.

Parents play a crucial role in setting the foundation for discipline by instilling in them, the qualities and respect, responsibility and abiding the rules.

Disciplined children are equipped with the skills and habits that they need to lead a successful life.

## TEACHER'S CORNER:

### THE WISE TEACHER

One day, our teacher wrote a difficult sum on the board. Many of us got the answer wrong and felt upset.

She smiled and said, "Mistakes are proof that you are trying. Every error is a step towards learning."

From that day, we were never afraid to try.  
Message: Mistakes help us grow.
